SUPERIOR SCIENCE. SUPERIOR RESULTS.™

ULTIMATE 100% WHEY PROTEIN+ MASS GAINER

MuscleTech® researchers have engineered a brand-new, 5-in-1, hardcore mass gainer designed for individuals looking to put on an extreme amount of mass. MASS-TECH® EXTREME 2000 features 80g of protein, over 400g of carbs and over 2,000 mass-producing calories (when mixed with 20 oz. of skim milk), plus 8.2g of L-leucine, 10g of creatine, and 20 vitamins and minerals for huge size and strength gains. MASS-TECH® EXTREME 2000 has everything you need to bulk up, pack on muscle and smash through strength plateaus.▲‡

1 100% Whey High-Protein Shake

MASS-TECH® EXTREME 2000 delivers more protein per serving than most other mass gainers available on the market. With a whopping 80g of premium protein (when mixed with 20 oz. of skim milk), your body will have all the building blocks it needs to build the size and muscle you're looking for.▲‡

2 Multi-Phase Carbohydrate Complex

MASS-TECH® EXTREME 2000 supplies over 400g of carbohydrates (when mixed with 20 oz. of skim milk) through a multi-phase carb complex to spike your insulin levels and promote muscle glycogen replenishment. This will help creatine reach your muscles and put your body in an extreme anabolic state.▲‡

3 High-Density Clean-Calorie Drink

The new, scientifically superior MASS-TECH® EXTREME 2000 formula delivers over 2,000 calories (when mixed with 20 oz. of skim milk) and delivers high-quality whey protein and easy-to-digest complex carbohydrates. In a university study, subjects who added 2,000 calories to a high-protein diet and a weightlifting program gained 6.8 lbs. of mass (vs. 1.3 lbs. in the control group). This formula is so powerful you only need one serving a day! ▲‡

Roziniek et al., 2002. *Journal of Sports Medicine and Physical Fitness.* 42(3):340-7.

4 HPLC-Tested Creatine Monohydrate Drink

Unlike our competitors that contain little to no creatine, MASS-TECH® EXTREME 2000 contains a clinically validated 10g dose of creatine to help you increase strength and regenerate ATP stores that are reduced during resistance training. In a human clinical study, subjects gained 6 lbs. in just 6 weeks while using the same creatine dose found in MASS-TECH® EXTREME 2000!▲

Peeters et al., 1999. *Journal of Strength and Conditioning Research.* 13(1):3-8.
Rutland et al., 2007. *Journal of the International Society of Sports Nutrition.* 4:8.

5 High-Potency Branched Chain Amino Acid Shake

Each serving of MASS-TECH® EXTREME 2000 (when mixed with 20 oz. of skim milk) delivers 17.8g of BCAAs, including 8.2g of musclebuilding L-leucine. L-leucine is a powerful nutrient signaler that enhances mTOR activation and causes amplified protein synthesis. In a clinical study, L-leucine was shown to help subjects increase their 5-rep max strength by over 40% in just 12 weeks. What's more, when mixed with 20 oz. of skim milk, you get 14.5g of L-glutamine and precursor to support muscle recovery. You won't find this amount of aminos in any other mass gainer on the market!▲

Greiwe et al., 2001. *Am J Physiol Endocrinol Metab.* 281(3):E466-71.
Kimball & Jefferson., 2001. *Curr Opin Clin Nutr Metab Care.* 4 (1):39-43.
Isopoglou et al., 2011. *Int J Sports Physiol Perform.* 6(1):38-50.

BASED ON RESEARCH AT A LEADING AMERICAN UNIVERSITY

TEST SUBJECTS RAPIDLY ADDED MASS!▲

In an 8-week study, subjects consuming a high-protein diet containing approximately 2,300 calories and performing a weightlifting program added 2,000 calories to their regimen. The results were examined and, on average, subjects gained 6.8 lbs. of mass while control subjects gained 1.3 lbs.▲

ONLY HIGH BIOLOGICAL VALUE PROTEIN SOURCES

Protein	BV	MASS-TECH® EXTREME
97% Whey Protein Isolate	104	✓

Other Ingredients: Multi-Phase Carb Complex (Glucose Polymers, Oat Bran [as *Avena sativa*], Isomaltulose), **Multi-Phase Protein System** (Whey Protein Concentrate, Whey Protein Isolate 97%, Whey Protein Isolate, Hydrolyzed Whey Protein Isolate), Carob Powder, Cocoa (Processed with Alkali), Barley, Natural and Artificial Flavors, Cocoa Butter, Soy or Sunflower Lecithin, Salt, Acesulfame-Potassium, Gum Blend (Cellulose Gum, Xanthan Gum, Carrageenan), Sucralose, Ferric Orthophosphate, Medium Chain Triglycerides. **Contains milk, soy and coconut ingredients. Processed in a facility that also processes egg, wheat, peanut, tree nut, fish and shellfish ingredients.**

Directions: Shaker Cup: Mix 1/2 serving (3 heaping scoops) with 10 oz. of water or skim milk in a shaker cup and consume twice daily. **Blender:** Mix 1 serving (6 heaping scoops) with 20 oz. of water or skim milk in a blender and consume once daily. Take in the morning, between meals or post-workout. Read the entire label before use and follow directions provided. Drink 8 to 10 glasses of water daily for general good health.

WARNING: Not intended for use by persons under 18. Do not use if pregnant or nursing. Childbearing age women should limit daily vitamin A intake to 10,000 IU (excludes beta-carotene). Consult a medical doctor if you have a medical condition or before starting any diet or exercise program.

Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F).

This product contains 10g of creatine per serving, which is in addition to the 60g of protein per serving shown in the Supplement Facts. Creatine is not counted toward the total amount of protein in this product.
