DIM

Contains BioResponse DIM®, a unique, stable, bioavailable form of DIM, made possible through a proprietary delivery system.* The formula is co-solubilized with phosphatidylcholine, and microencapsulated in starch particles. Unlike indole-3-carbinole (I3C), patented BioResponse DIM® is highly stable and requires no conversion in the stomach.

Suggested Use

As a dietary supplement, 2 to 4 capsules one or two times daily with food, or as directed by a healthcare practitioner.

Do not use this product if you are pregnant, lactating, or using birth control pills. Persons taking prescription medications should consult a healthcare professional before use. Harmless changes in urine color may occur. Keep out of reach of children.

BioResponse DIM® is a proprietary, enhanced bioavailability complex containing diindolylmethane licensed from BioResponse, L.L.C., Boulder, Colorado.*
