LIQUID MULTI-PHASE™ TECHNOLOGY

BURN FAT FAST

Dietary Supplement - 120 Multi-Phase Capsules

LIQUID MULTI-PHASE™ TECHNOLOGY

Lipo-6X is the world's most advanced fat burner using a new and superior liquid MULTI-PHASE™ technology. This unique MULTI-PHASE™ technology combines rapid liquid capsule delivery with controlled-release inside capsule technology. What this means is that Lipo-6X is the only fat burner that has multiple release phases, both fast and extended:

Phase #1 Rapid Release Liquid Capsule: The outer liquid capsule of Lipo-6X ensures a rapid and almost instant uptake of its appetite-suppressing, fat-burning, thyroid-boosting and energy-promoting ingredients. Within minutes of taking Lipo-6X you will feel all the liquid pharmaceutical-grade compounds working for you.

Phase #2 Controlled and Extended Release Inside Capsule: Unlike standard fat-burning formulas, whose effects come and go quickly, Lipo-6X continues to work for you over an extended period of time. By selectively putting some of the ingredients in the form of beadlets into a separate capsule, that sits inside the liquid capsule, the absorption rate can now be controlled. This greatly extends the amount of time these ingredients are active, which means that the appetite-suppressing, thyroid-boosting and fat-burning effects of Lipo-6X continue to work for many hours allowing you to consistently lose weight around the clock.

Lipo-6X is the first and only fat burner that offers speed and duration. A quick and rapid onset of its powerful fat-burning and energy-promoting effects, combined with a controlled and extended release, will ensure maximum results day and night.
