GNC QUALITY COMMITMENT

GNC, the leader in the development and manufacture of dietary supplements, is committed to producing the highest quality products available. This commitment begins with quality designed supplement formulations. Every raw material that goes into a GNC supplement is guaranteed as to quality and potency. Each product is dated and then shipped immediately to our stores, so you can be sure you are purchasing the freshest supplements available. At GNC, we extend our quality commitment to you by offering our money-back guarantee.

GNC GUARANTEE

Use any GNC supplement for as little as 10 days. If you are not 100% completely satisfied, return the unused portion of the product with proof of purchase to your GNC store for a complete refund of your purchase price. No questions asked!

Mega Teen® is a multiple vitamin and mineral formula designed specifically for today's active teens. Busy schedules can result in sporadic and inconsistent eating habits. One third of all teenagers meals are consumed out of the house and most eat foods that may be high in calories, but low in nutritional value. Mega Teen supplies important nutrients to safeguard your active teen's diet.

Bone Health

- Offers bone-strengthening ingredients like calcium, magnesium and vitamins C and D.* These nutrients are necessary for strong teeth and healthy bones.*

Immune and Antioxidant Support

- Contains vitamins C and E that help to support natural resistance and provides antioxidant support by protecting the body from excess free radicals that can destroy healthy cells.* Vitamin C also plays a role in neurotransmitter production and function and is found in high concentrations in the brain.*

- Provides essential minerals including selenium and zinc. Selenium helps supports antioxidant activity.* Zinc helps to support natural resistance and metabolism.*

Energy Production & Metabolism

- Features B-vitamins that are essential for energy production and carbohydrate metabolism.* Helps to counter the strain of poor or inadequate dietary habits, physical activities and mental exhaustion.
- Fortified with Iron. Important for growing teens, iron plays a vital role in the formation of healthy red blood cells and energy production.* The need for iron increases in females during menstruation and in males as they develop lean body mass.
- Supplies key minerals such as zinc and chromium that are involved in carbohydrate metabolism and glucose utilization.*

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Multivitamin for teens
