Rejuvenate is shown to **increase Muscle Protein Synthesis (MPS) by up to 57% - even at rest** - vs. whey protein at 35%. MPS is a key factor in muscle maintenance and growth.†

The new gold standard for measuring protein quality is called DIAAS and ranks how a protein source is absorbed and utilized by the body. Each Rejuvenate serving contains the ideal formula that ranks highest on the DIAAS chart. Gram per gram, nothing is higher in protein quality than Rejuvenate!†
