NET WT 515G (18.17OZ)

Why Grass-Fed Collagen?

It's no secret that collagen peptides are a key ingredient to successful health and beauty regimens. But there is one vital collagen industry secret you need to understand - not all collagen peptides are created equal.

Grass-fed beef has much less monounsaturated fat than grain-fed beef, up to five times as much omega-3's, about twice as much CLA, contains vitamin A precursors and vitamin D.

We also include pH neutral Vitamin C for collagen synthesis and organic Chaga for immune health and wellness.

†Average score for typical collagen peptides derived from mammals

Directions: Mix one heaping scoop with 16-32oz of water or a liquid of your choice.

Great in coffee, smoothies or baked goods! Shake container well before use.

Store in a cool, dry place away from sun and heat. Foaming is normal and will settle.
