FOR LIFE BALANCE™

OsteoBoron® with Green Superfoods

- Natural Boron Complex
- Supports Healthy Joints and Bone Density*

10% of profits donated for health research

90Vcaps®

A Dietary Supplement Vegetarian Formula

SUGGESTED USAGE: As a dietary supplement, take 2 Vcaps® 1 to 2 times daily, preferably with meals.

OsteoBoron® is a patented natural complex of Boron identical to Boron complexes found in fruit, vegetables, and nuts. It is also safer and more bioavailable than other forms of Boron. Boron is an important trace mineral for bone and joint health throughout life, as well as for the development and maintenance of healthy bones. OsteoBoron® is a complex of Boron that has been the subject of clinical studies demonstrating its efficacy in the support of healthy joints.*

Boron occurs in plant foods such as fruit, vegetables, and nuts. Boron is an important trace mineral for bone and joint health, and for the development and maintenance of healthy bone density. OsteoBoron® contains Calcium Fructo-Bonite, the world's only patented complex of Boron identical to Boron complexes found in food for bone and joint health. Clinical studies have shown that Calcium Fructo-Bonite can support joint health and flexibility.

OsteoBoron® is a patented ingredient that contains a boron complex that is chemically identical to the natural plant forms of boron found in food (Calcium Fructo-Bonite). In human and animal studies this patented form of boron, taken at an amount equal or equivalent to 6 mg per day, improved bone ash (bone minerals) and Vitamin D status in Vitamin D deficient subjects. In human studies, Calcium Fructo-Bonite was shown to be effective for the support of joint comfort when taken for 2 months at 6 mg per day. The dose used in these studies is equivalent to 2 capsules per day of OsteoBoron®.*

Cautions and Interactions
There are no known interactions with OsteoBoron®.

Guaranteed Quality
This is an FDA-regulated dietary supplement that is produced in an FDA- and third party-inspected facility. We are certified for producing dietary supplements and USDA Organic products using Good Manufacturing Practices (GMP). All ingredients are quality tested to meet or exceed specifications. Our quality team goes above and beyond standard quality control to ensure the safety and efficacy of this supplement. We utilize advanced analytical and microbiological testing methods, with capabilities that are state-of-the-art and exceed basic lab requirements.
