Cardio Health Program

PREVENTIVE NUTRITION®

Cardio Health Program

May reduce the risk of heart disease*

DIETARY SUPPLEMENT

- Lowers LDL (bad) cholesterol*
- Blocks absorption of cholesterol from food*
- Maintains normal, healthy blood pressure levels*
- Supports blood vessel function*

Preventive Nutrition® Cardio Health Program

Preventive Nutrition® Cardio Health Program helps already healthy individuals that support their health and may reduce the risk of heart disease.* These ingredients have been shown to reduce cholesterol levels, maintain healthy blood pressure and support blood vessel function.* Cardio Health Program is packaged in convenient, easy-to-take capsules.

CardioAid® Phytosterols

Phytosterols are natural components that are found in fruits, vegetables and whole grains that help block dietary cholesterol absorption.* Scientific research shows that 2g of regular serving of these phytosterols taken before a day with meals for a daily total intake of at least 800 mg, as part of a diet low in saturated fat and cholesterol may reduce the risk of heart disease. Each daily serving of Preventive Nutrition® Cardio Health Program supplies 800 mg of CardioAid®, phytosterols.

SlimpleAid®-BP™

Clinically shown to help maintain normal, healthy blood pressure levels already within the normal range. SlimpleAid®-BP™ is a special blend of grape seed extract that combine synergistically to support a healthy heart.*

Omega-3 Fatty Acids

Fish oil is naturally rich in Omega-3 fatty acids, EPA (Eicosapentaenoic Acid) and DHA (Docosahexaenoic Acid). One capsule features a blend of 180 mg of omega-3 fatty acids, 144 mg of EPA and 36 mg of DHA. Omega-3 fatty acids are necessary for each health and help support normal, healthy cholesterol levels and aid in the maintenance of normal blood pressure.* Omega-3 fatty acids are also vital for cardiovascular system health, and they contribute support for healthy triglyceride levels.* Consumption of omega-3 fatty acids may reduce the risk of coronary heart disease.* Of emphasis for this case are clinical trials that, although they do not specifically address supporting the claim, the evidence is not conclusive. The high amount fish oil in certain cases cannot achieve the certain results in a heart disease and diabetics the small medium is active in reduce fatty acids.

ONE Tablet Strength Fish Oil has been manufactured for Vitamins. We are only the best quality ingredients behind every dose, every season.

Coenzyme Q-10

CoQ-10 helps support heart and blood vessel health.* It is an antioxidant that is an essential component of our heart's energy producing system. Age can reduce the amount of CoQ-10 in the body.
