1 - PRE WORKOUT

PEAK PERFORM is an elite pre-workout for the serious athlete. Peak Perform features 3 of the most studied ingredients in the sports nutrition industry at clinically backed dosages; Peak ATP®, BetaPower™, and Carnosyn®. By combining these three, highly effective, scientifically backed ingredients, we have created one of the most effective pre-workouts on the market! This premium combination makes PEAK PERFORM the most beneficial supplement you can add to your pre workout regimenas Peak ATP® is clinically shown to give you more lean muscle mass, greater muscle excitability, improved endurance, increased blood flow and decreased recovery time. When you put the work into training your body, you want to be able to push harder, train longer, and consistently perform better. With PEAK PERFORM you will truly be able to achieve your peak performance!*

2 - CREATINE BLEND

Creatine is one of the most popular supplements today and that's not going to change any time soon. There is a great amount of research to support its performance-enhancing effects for a wide range of sports; from sports that demand intensive strength and endurance training like bodybuilding, weight lifting, Crossfit, cycling, and MMA to sports that require speed, such as sprinting, soccer, rowing, and swimming. HIT CREAFUSION is a cutting-edge, superior blend of 4 top-tier and highly-researched creatine powders: CreaPure® (Creatine Monohydrate), COPMAX™ (Creatinol-O-Phosphate), Creatine Monohydrate Di-Creatine Malate, and Creatine MagnaPower® (Magnesium Creatine Chelate). By combining these varieties you get the benefits of all of them in one product to help you take it to the next level, no matter what you train for.*

3 - BCAA RECOVERY BLEND

MUSCLE MATRIX is the most advanced concentrated BCAA recovery blend on the market. By combining top quality, concentrated amounts of BCAA'S, Sustamine®, HICA, and electrolytes, Muscle Matrix gives you cutting edge recovery. Get better workout performance, improved endurance, and faster recovery. With these concentrated ingredients you will be able to get the most out of your training routine and recovery because you will get better absorption while using less! Sustamine is a dipeptide of glutamine that provides more than 200 percent better absorption than standard L-glutamine. MUSCLE MATRIX will help you kick your training up a notch by maintaining hydration, and feeding your muscles properly after exercise.*
