Seasonal Immune Support*

- Patented Allisure® Allicin
- With Olive Leaf Extract, Elderberry & Oregano
- Enteric Coated

10% of profits donated for health research

60 Softgels

A Dietary Supplement

SUGGESTED USAGE: As a dietary supplement, take 1 softgel 2 times daily with meals as needed.

A-Biotic™ is a potent herbal combination designed to support healthy immune function seasonally and year-round. A-Biotic contains Allisure®, a patented, stabilized form of allicin from fresh garlic. Allicin is the main bioactive constituent in garlic responsible for its immune-enhancing activities.* In addition, Elderberry Extract, Olive Leaf Extract, and Oregano Oil have been included for their immune supporting properties.* ImmuneEnhance™ is non-digestible soluble fiber from Larch that has been included as a prebiotic supplement. Prebiotics serve to support healthy intestinal flora, which in turn play an integral role in human immunity.

These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Contains no sugar, salt, starch, yeast, gluten, milk, egg or preservatives.

Do Not Eat Freshness Packet. Keep in Bottle.

Store in a cool, dry place. Please Recycle.

CODE P181 V2

9

A-Biotic™ is a very potent herbal formula designed to support healthy immune functions.* It is enteric coated to withstand stomach acid and release the formula directly into the intestinal tract. Unlike similar products in this category, this product can be taken all year long.

A-Biotic™ contains Allisure®, a unique, clinically tested and patented form of stabilized Allicin. Allicin is a distinctive compound obtained from garlic, and is generally known for its immune-enhancing properties.

In addition, A-Biotic™ contains Elderberry Extract, a rich source of bioflavonoids and anthocyanins, which act as antioxidants and can help protect cells from free radical damage.* Olive Leaf Extract is included for its ability to support healthy inflammatory responses.* Oregano Oil is also included, and is widely recognized for its immune support properties.*

Lastly, we've added the prebiotic ImmuneEnhance™, a non-digestible soluble fiber from the Larch tree that helps to support healthy intestinal flora, a "key" component towards maintaining healthy immune function.

Cautions and Interactions

Garlic may affect the anticoagulant effects of blood thinning medications. The small amount of allicin from garlic contained in this formula would be unlikely to interact with these drugs in any significant manner, but consult with a health professional before use if taking such medications.

Guaranteed Quality

This is an FDA-regulated dietary supplement that is produced in an FDA- and third party-inspected facility. We are certified for producing dietary supplements and USDA Organic products using Good Manufacturing Practices (GMP). All ingredients are quality tested to meet or exceed specifications. Our quality team goes above and beyond standard quality control to ensure the safety and efficacy of this supplement. We utilize advanced analytical and microbiological testing methods, with capabilities that are state-of-the-art and exceed basic lab requirements.
