POTENT HEART SUPPORT*

Health Benefits of Omega-3 EPA*

Scientific research confirms that Omega-3 supplementation supports heart health by helping to maintain healthy cholesterol, triglyceride and blood pressure levels already in the normal range.* Omega-3s help maintain these key markers by supporting the body's normal inflammatory response, promoting optimal heart, blood vessel, and joint health.*

The Omega-3 EPA in fish oils helps naturally **reduce triglycerides**, and support healthy cholesterol and blood pressure levels already in the normal range.*

What Fat & Cholesterol Mean to Your Heart

Your cardiovascular system is home to both LDL (bad) cholesterol and HDL (healthy) cholesterol. High triglycerides means you have too much fat in your blood. Maintaining healthy triglycerides and cholesterol levels is an important way to support overall heart health.*

Norwegian Gold Advanced Omega-3 Fish and Krill Oils from ReNew Life surpass world standards to bring you the ultimate in potency, freshness and purity. They are backed by rigorous quality systems and testing so all you receive are the superior natural benefits of some of the purest oils on Earth. That's our promise to you.

NORWEGIAN GOLD®
THE ADVANCED FISH OILS

What Makes Norwegian Gold Omega-3 Fish Oils So Advanced?

Each Norwegian Gold softgel provides all the benefits of expertly formulated, highly absorbable Omega-3 fish oils and so much more.

- ✓ Highest potency of Omega-3 EPA per softgel
- ✓ Burp-free formula
- ✓ Enhanced digestion and absorption with lipase and enteric coating*
- ✓ Certified highest 5-star purity rating by IFOS
- ✓ Sourced from abundant non-endangered fish
- ✓ *Fresh-Assure* glass bottle to protect softgels from damaging light and moisture
- ✓ Fish gelatin softgels

No Fishy Aftertaste and Increased Omega-3 Absorption*

Enteric-coating helps each Norwegian Gold softgel bypass the stomach to release in the intestines for no fishy aftertaste and better absorption of the Omega-3s.*

Natural Lipase is added to further aid in Omega-3 absorption. Lipase is essential for oil digestion, yet other fish oils lack this powerful fat-splitting enzyme.*

‡Supportive but not conclusive research shows that consumption of EPA & DHA Omega-3 fatty acids may reduce the risk of coronary heart disease.

NORWEGIAN GOLD®
THE ADVANCED FISH OILS

EPA 1000 OMEGA

ADVANCED OMEGA-3 for Potent Heart Support*
1000 mg of Omega-3 EPA per Softgel

MAY REDUCE RISK OF HEART DISEASE‡

- ▶ **Helps Lower Triglycerides Without Raising LDL Cholesterol Levels*[1]**
- ▶ **Enhanced with Vitamin D3**
- ▶ **BURP-FREE Formula**
