

Supplement Facts

Serving Size: 1 Scoop (3g)

Serving Per Container: 30

	Amount Per Serving	% Daily Value
Calories	1	0%
Total Carbohydrates	2	2%
Sugars	1	2%
Waste (L-Aspartic Acid HCl)	10mg	100%
Waste (L-Aspartic Acid)	40mg	100%
Indolylalanine, gamma-glutamyl		
Sodium	10mg	2%
Phosphorus	100mg	10%
N.O. Overload™	2,000mg	1

Proprietary Precision Growth Blend:

Nitric Oxide Blend with Micro-Rx™ and Endo-Rx™ Technology: L-Arginine HCl, L-Arginine Ethyl Ester Dihydrochloride, L-Arginine HCl, L-Arginine Malate, Glycine, L-Arginine-Alpha-Ketoglutarate Acid

Hi-Tech Arginase Inhibitors:

2(S)-Amino-2-Bornanecarboxylic Acid (ABN), 5-(2-Bornanethoxy)-L-Cysteine HCl (BEC), L-Homocysteine

Hi-Tech Muscle Cell Volumizing and Performance Technology:

Sodium Creatine Phosphate Tetrahydrate, Creatine-D-Phosphate, Creatine Ethyl Ester HCl, Creatine Monohydrate, Di-Creatine Malate, Inosine Ethyl Ester HCl, Adenosine Triphosphate Sodium, Taurine Ethyl Ester HCl, Guanidino Propionic Acid

Therma-Rx® and Hi-Tech Energy Complex:

Acacia Polydextrose 50% Extract (an Thermo-Poly® leaves), Yerba Mate Extract, Theobromine Polyphosphate, Guarantha-Stercor Extract (Bark), L-Tyrosine Ethyl Ester HCl, Beta-Alanine Ethyl Ester HCl

Hi-Tech Recovery-Rx™:

L-Leucine Ethyl Ester HCl, L-Isoleucine Ethyl Ester HCl, L-Valine Ethyl Ester HCl, L-Glutamine Ethyl Ester HCl

*Daily Value Not Established

Other Ingredients: Naturally Sweet™ (Erythritol, Maltitol, Maltodextrin, Xylitol, Sucralose

• 2,000g), Nat'Art Fruit Punch Flavors, Citric Acid, Red #40, Silicon Dioxide

N.O. OVERLOAD

PRE-WORKOUT FORMULA

- *WORLD'S STRONGEST ANABOLIC NITRIC OXIDE INJECTION SYSTEM;
- *FOR RAPID MUSCULAR SIZE, VASCULARITY, STRENGTH AND ENDURANCE;
- *REVOLUTIONARY ARGINASE INHIBITION;
- *EXPLOSIVE STRENGTH/TRAIN INSANE!

POUNDING PUNCH FLAVOR

DIETARY SUPPLEMENT **310g**

N.O. Overload™ is a proprietary Precision Growth Blend that incorporates 23 state-of-the-art science compounds in an optimally precise, pre-workout formula for bodybuilders and athletes who want to gain muscle and enhance performance, strength and training intensity.

Muscle N.O. Overload™ incorporates into its formulation:

- Hi-Tech Arginase Inhibitors
- Hi-Tech Muscle Cell Volumizing and Work Performance Technology
- Nitric Oxide Blend - Micro-Rx™/Endo-Rx™ Technology
- Thermo-Rx® and Hi-Tech Energy Complex

This unique, multi-directional formulation is designed to facilitate an optimal pre-workout metabolic environment, by creating a staging area in the bloodstream of key compounds that act synergistically to enhance nitric oxide (NO) production and vasodilation, primarily through the unlisted use of novel arginase inhibitors. This allows for more intense and longer muscular contraction across a spectrum of various resistance and endurance training platforms. N.O. Overload™ also loads you with the energy and endurance to perform high intensity training, from start to finish, beyond your normal threshold limits.

Hi-Tech's revolutionary arginase inhibition approach is truly novel to the supplement industry. N.O. Overload™ has the ability to generate and maintain substantially more NO than ordinary ARG-based NO products. N.O. Overload™'s arginase inhibitors, ABN, BEC and L-Homocysteine, ensure safe delivery of the high dosage of arginine in N.O. Overload™ directly into muscle fibers, resulting in a significant increase in the availability of arginine for NO production. This translates to an incredible perpetual pump, which results in continuous muscle fullness, hardness and vascularity.

N.O. Overload™, by utilizing arginase inhibition, has raised the bar in the nitric oxide sports nutrition category.

Directions:

Recommended Use On Training Days: Once your tolerance has been established, mix 1-2 scoops with 8-16 oz of cold water and consume 30-45 minutes before training. Use approximately 8 oz of water per 1 scoop of powder.

Recommended Use On Non-Training Days: Mix 1 scoop with 8 oz of cold water.
