Health experts agree: not all fat is bad for you. Omega-3 fatty acids are considered one of the "good" fats important for cellular, heart and metabolic health.* Triple Strength Odorless Fish Oil contains eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA), two fatty acids that help support and maintain the health of your cardiovascular system.* Fish Oil also helps maintain triglyceride levels already within a normal range.*

Guaranteed Purity. Molecularly Distilled to remove impurities such as pesticides (PCB's, PCDF's, PCDD's, Dioxin) and heavy metals (Mercury, Lead).

WARNING: If you are pregnant, nursing, taking any medications or planning any medical procedure, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Keep out of reach of children. Store in a cool, dry place. Do not use if seal under cap is broken or missing.
