A Dietary Supplement. Vegetarian Formula.

PROTOCOL
FOR LIFE BALANCE™

Immune Renew™

- Immune Recharging Mushroom Formula*
- Plus Astragalus Root Extract

10% of profits donated for health research

SUGGESTED USE: As a dietary supplement, take 1 Vcap® 1 to 2 times daily.

Protocol For Life Balance® Immune Renew™ is a potent immune system supporting formulation containing standardized Astragalus Extract and a High Beta-Glucan Proprietary Mushroom Formula.* Astragalus has been shown in non-clinical studies to support a number of aspects of healthy immune function, including healthy T-Cell and Natural Killer Cell activity.* Natural Killer cells are so named because they destroy unhealthy cells in the body vitally on contact. Our proprietary formula of eight organic mushrooms provides additional immune support by stimulating the activity of these cells. Beta-glucan is a polysaccharide valuable to immune system response.* They are increasingly lacking in today's typical diet. Scientific studies have demonstrated that the 1.3 form of Beta Glucan found in mushrooms possesses remarkable abilities to support both innate and adaptive immunity.* A strong, responsive immune system is the foundation of good health. Use Immune Renew™ to help support healthy immune function seasonally and throughout the year.

V2

Maintaining a strong, vital immune system is considered by many to be the foundation of good health. The human immune system is a network of cells and tissues which work together to defend the body against attacks.

Protocol For Life Balance™ Immune Renew™ contains standardized Astragalus Extract, an important herb used for centuries in the traditional Chinese system. Numerous modern scientific studies on Astragalus have documented its beneficial immune supporting properties.* These studies indicate that Astragalus exerts its effect on the immune system by supporting healthy T-Cell and Natural Killer Cell activity.*

For increased immune support we've included a proprietary blend of eight highly potent organic mushrooms, which provide a very significant 1, 3 Beta Glucan content. Beta Glucan has also been recognized for their positive effects on immune function.*

Cautions and Interactions

Astragalus may affect several pharmaceuticals, including antiviral medications (acyclovir and interferon), immune suppression medications (cyclophosphamide and corticosteroids), diabetes medications, high blood pressure medications, diuretics, and anti-coagulant drugs.

Guaranteed Quality

This is an FDA-regulated dietary supplement that is produced in an FDA- and third party-inspected facility. We are certified for producing dietary supplements and USDA Organic products using Good Manufacturing Practices (GMP). All ingredients are quality tested to meet or exceed specifications. Our quality team goes above and beyond standard quality control to ensure the safety and efficacy of this supplement. We utilize advanced analytical and microbiological testing methods with capabilities that are state-of-the-art and exceed basic lab requirements.
