L-Carnitine acts as a carrier of fatty acid molecules into the mitochondria of heart and skeletal muscle, where fatty acids can be utilized by the tissue cells as a source of energy. L-Carnitine is a 100% naturally-occurring compound, with highest concentrations found in heart and skeletal muscle and dairy products.†

†These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

This product contains no synthetic D- or DL-carnitine

Suggested Use:

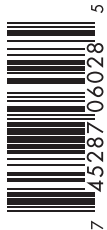

As a dietary supplement, adults take 1 tablet daily or as directed by physician.

KEEP OUT OF REACH OF CHILDREN.
