*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Directions: For adults, take five (5) tablets daily, preferably with a meal.

Bone health can be dependent on many factors including heredity, diet, exercise and lifestyle. Calcium is the primary mineral responsible for strong bones.* The body also uses Calcium for proper muscle contraction and nerve function - and obtains this Calcium mainly from the bones or from dietary intake.* Because the body cannot produce Calcium, a balanced diet, regular exercise, healthy lifestyle choices and adequate intake of Calcium can play a role in maintaining bone health.*

WARNING: If you are pregnant, nursing or taking any medications, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur. Keep out of reach of children. Store in a cool, dry place. Do not use if seal under cap is broken or missing.
