21ST Century® ... for a healthier future.

Glucosamine & Chondroitin

The combination of glucosamine sulfate and chondroitin sulfate, found in the soft cartilage, tendons, and synovial fluid, are essential to the healthy functioning of tendons and joints, especially with advancing age.* 21st Century's® Glucosamine & Chondroitin, combines these two nutritional elements in the proper amounts for your effective use. This product is not, however, intended to replace the advice of your healthcare provider.
