

ARM YOURSELF

AMMO does it again, by bringing to the market a highly sought after but very rare compound. AMMO-TEST is a non-methylated precursor of 1-Testosterone. In this non-androgen pro-hormone market, AMMO-TEST fills a very large void. You can expect all the great effects of taking Test without having to worry about aromatization, because 1-Testosterone does not convert to estrogen. AMMO-TEST, it's what you have been waiting for

Manufactured for: **AMMO**
