from an all natural plant source

60 softgels

life'sDHA™ plant-sourced omega-3:

A nutritionally complete diet includes omega-3's such as **life'sDHA™**. DHA (docosahexaenoic acid), an omega-3 fatty acid, is a major structural fatty acid in the brain and eyes, and a key component of the heart. DHA is the only omega-3 that has been shown to support brain, eye and heart health throughout every stage of life.* Yet the typical American diet usually falls short of recommended DHA levels.

Unlike other sources of DHA omega-3, **life'sDHA™** comes from a vegetarian source (algae), grown in an FDA-inspected facility. Because **life'sDHA™** is not from fish, there is no worry of ocean-borne contaminants such as mercury or PCB's.

Directions: Take up to three (3) softgels daily, preferably with food. Do not exceed recommended dosage. Consult your health care professional before using this product. Keep in a cool dry place with the cap tightly closed.

Keep Out of Reach of Children.
