Serving Size 1 Vcap®

PROTOCOL
FOR LIFE BALANCE™

Brain Regain™

- With Huperzine A, Ginkgo Biloba, Phosphatidyl Serine and RoseOx®
- Neuroprotective & Antioxidant Activity*

10% of profits donated for health research

90vcaps®

A Dietary Supplement Vegetarian Formula

SUGGESTED USAGE: As a dietary supplement, take 1 Vcap® 1 to 2 times daily. Do not exceed dosage without advice of a practitioner.

For centuries, Eastern civilizations have relied on Huperzine as a broadly useful herb for health aid. It was only recently discovered however, that this herb is also found in the brain and plays a substantial role in cognitive clarity and memory function. By combining this extract with a proprietary blend of other natural substances that help protect neuronal tissue and improve blood flow (RoseOx®, Ginkgo Biloba, L-Glutamine and more), Protocol For Life Balance™ Brain Regain™ may be advantageous for supporting healthy cognitive performance.

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: Keep away from children. Do not use if pregnant or lactating. Do not take this product if you are taking blood-thinning or cholesterol medications without first consulting a physician.

Do Not Eat Freshness Packet. Keep in Bottle.

Vegetarian/Vegan Formula.

CODE P3303

The botanical extract, Huperzine, has been used in China for centuries for a myriad of health benefits. Huperzine is a naturally occurring alkaloid found in the extracts of the moss, *Huperzia serrata*.

Studies have indicated that Huperzine's benefits are a result of its ability to support healthy cell to cell communication and improved blood flow, both of which contribute to enhanced memory function.* The mechanism by which Huperzine exerts its effects is thought to be through its ability to slow the breakdown of acetylcholine, a neurotransmitter that is necessary for neural communication.

Brain Regain™ combines Huperzine with RoseOx® Rosemary Leaf Extract (antioxidant healthy), Ginkgo Biloba, L-Glutamine (an alternate fuel source for brain tissue), Phosphatidyl Serine (an essential nutrient for the normal functioning of neuronal cell membranes), Gotu Kola, and Choline (a component of acetylcholine) for an overall support product for memory and brain health.*

Cautions and Interactions

Huperzine A should be avoided by children, pregnant women and nursing mothers. There are possible adverse effects in those with seizure disorders, cardiac arrhythmias, asthma, irritable bowel disease and inflammatory bowel disease. This product should not be used by those taking prescription medications or who have a history of heart or pulmonary problems without the advice of a physician.

Guaranteed Quality

This is an FDA-regulated dietary supplement that is produced in an FDA- and third party-inspected facility. We are certified for producing dietary supplements and USDA Organic products using Good Manufacturing Practices (GMP). All ingredients are quality tested to meet or exceed specifications. Our quality team goes above and beyond standard quality control to ensure the safety and efficacy of this supplement. We utilize advanced analytical and microbiological testing methods, with capabilities that are state-of-the-art and exceed basic lab requirements.
