A Dietary Supplement

PROTOCOL
FOR LIFE BALANCE™

Glucose Balance™

- Supports Healthy Glucose Metabolism*
- Supports Normal Insulin Function*
- Minimizes Sweet Cravings*

10% of profits donated for health research

SUGGESTED USAGE: As a dietary supplement, take 1 capsule 3 times daily with meals.

Glucose Metabolic Support contains GlucoFirm™, a dietary ingredient extracted from the herb *Lagerstrœmia speciosa*. GlucoFirm™'s active component, coronolic acid, has shown in scientific studies to support healthy glucose levels already within the normal range. We have also included an extract from the herb *Gymnema sylvestre*, a small plant native to India. Extracts of *Gymnema* have been used for centuries by Ayurvedic herbalists for the support of normal glucose metabolism.*

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: Diabetics and Hypoglycemics should consult with a qualified health practitioner before using.

Do Not Eat Freshness Packet. Keep in Bottle.

Store in a cool, dry place. Please Recycle.

Contains no sugar, salt, yeast, wheat, gluten, corn, soy, milk, egg, shellfish or preservatives.

CODE P3318

Glucose Balance™ contains GlucoFirm™, a specialized supplement extracted from the herb *Lagerstrœmia speciosa*, a small tree typically found in tropical Southern Asia. The leaves of *Lagerstrœmia speciosa* produce coronolic acid, the main active ingredient in GlucoFirm™. Scientific studies have documented coronolic acid's exceptional ability to help maintain a healthy glucose metabolism already within the normal range.*

This unique formula also contains *Gymnema sylvestre*, an herb native to the tropical forests of southern and central India where it has been used by Ayurvedic herbalists for nearly two millennia.

Caution and Interactions

B Vitamins (thiamine and pantothenic acid) may interfere with the absorption and utilization of certain antibiotics, such as tetracycline and sulfonamides. Also, B Vitamins may interact with some chemotherapy agents and they should only be used concurrently under the supervision of a physician.

Because many pharmaceutical medications increase the need for B Vitamins, it is advisable to consult your physician for details regarding these types of interactions. In addition, B Vitamins may affect the body's response to triptyc antidepressants.

Chromium and Gymnema supplements may affect certain diabetes medications. Carefully monitor blood sugar levels if you are concurrently taking chromium and Gymnema with these medications.

Studies suggest that anacardic, particularly those containing calcium carbonate, may reduce the body's ability to absorb chromium.

Guaranteed Quality

This is an FDA-regulated dietary supplement that is produced in an FDA- and third party-inspected facility. We are certified for producing dietary supplements and USDA Organic products using Good Manufacturing Practices (GMP). All ingredients are quality tested to meet or exceed specifications. Our quality team goes above and beyond standard quality control to ensure the safety and efficacy of this supplement. We utilize advanced analytical and microbiological testing methods, with capabilities that are state-of-the-art and exceed basic lab requirements.
