SUGGESTED USAGE: As a dietary supplement (especially for men), take 1 softgel daily, preferably with a meal.

Saw Palmetto (*Serenoa repens*) is a low-growing palm tree native to the southeastern United States. Saw Palmetto contains a number of beneficial compounds, including flavonoids, sterols and fatty acids that may support prostate health.*

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

Saw Palmetto (*Serenoa repens*) is a small palm tree native to the West Indies and the North American Atlantic coast. Native Americans have used Saw Palmetto traditionally to support male reproductive health, as well as to support proper urinary tract function.*

Saw Palmetto contains flavonoids, sterols, and fatty acids that are believed to be its active constituents. Recent scientific studies indicate that Saw Palmetto extracts can support prostate health, prostate function and urine flow.* However, the exact mechanism of action is as yet unknown.

Cautions and Interactions

Studies on Saw Palmetto have reported good tolerance and side effects similar to placebo. The most likely side effects are gastrointestinal.*

May interact with anticoagulants, such as warfarin, to increase bleeding time, but reports are inconsistent on this point. Some internet sites claim an interaction, although a major review found no drug interactions.

Guaranteed Quality

This is an FDA-regulated dietary supplement that is produced in an FDA- and third party-inspected facility. We are certified for producing dietary supplements and USDA Organic products using Good Manufacturing Practices (GMP). All ingredients are quality tested to meet or exceed specifications. Our quality team goes above and beyond standard quality control to ensure the safety and efficacy of this supplement. We utilize advanced analytical and microbiological testing methods, with capabilities that are state-of-the-art and exceed basic lab requirements.
