90 Softgels

A Dietary Supplement Vegetarian Formula

Peppermint is an herb that is often found growing wild in central and southern Europe. Peppermint contains particularly high menthol levels, and like many spices and herbs, is widely believed to support digestive system health.*

Protocol for Life Balance® Peppermint Oil G.I.™ gel is enteric-coated, so they can safely pass through the stomach in order to be released into the intestines.

Peppermint Oil has been classified as a carminative, which is defined as "preventing and relieving intestinal gas (V.L. Iyer, Herbs of Choice: The Therapeutic Use of Phytonutrients), "Three out of four double-blind trial showed benefits of using enteric coated peppermint oil in calming the intestine.

Cautions and Interactions

Peppermint is generally regarded as being safe in non-allergic adults when taken in small doses as directed.

Do not use during pregnancy or lactation, if sensitive to the mint family, taking prescription drugs or if suffering from gallbladder problems or chronic heartburn except as advised by a qualified healthcare provider.

Guaranteed Quality

This is an FDA-regulated dietary supplement that is produced in an FDA- and third party-inspected facility. We are certified for producing dietary supplements and USDA Organic products using Good Manufacturing Practices (GMP). All ingredients are quality tested to meet or exceed specifications. Our quality team goes above and beyond standard quality control to ensure the safety and efficacy of this supplement. We utilize advanced analytical and microbiological testing methods, with capabilities that are state-of-the-art and exceed basic lab requirements.

This product contains an AgSes® anti-oxygen packet to enhance protection during storage.

SUGGESTED USAGE: As an herbal dietary supplement,

take 1 softgel 1 to 3 times daily, preferably between meals.

Protocol For Life Balance™ Peppermint Oil G.I.™ gels supply peppermint oil containing menthol, a potent compound that has been used for centuries to help encourage optimal health and wellness.* Most notably, at the 0.2 mL amount used in clinical tests, peppermint oil has the ability to support digestive system health.* Many traditionally have relied on this all natural extract to freshen breath, improve digestion and calm gastrointestinal upset.* The enteric-coated gels withstand stomach acid and release the peppermint oil directly into the intestinal tract.
