NATURE'S ANSWER® organic alcohol extracts are produced using alcohol, water and natural extractants. All extractants are then removed through our **Bio-Chelated®** proprietary process, yielding a **Holistically Balanced™ standardized** extract. Liquid extracts are absorbed faster than tablets or capsules, and are more potent than tinctures. **Holistically Balanced™** guarantees that the constituents of the extract are in the same synergistic ratios as in the plant. **Manufactured in our FDA registered and pharmaceutically licensed facility; Unconditionally guaranteed.**
