Formula CS Plus™

Based on the Creighton cancer
and osteoporosis study

DIETARY SUPPLEMENT

N_x

180 tablets

A clinical trial known as *the Creighton Study* (CS) revealed in 2007 that a daily supplement of vitamin D3 plus calcium can reduce one's cancer risk by 77%. The study also showed a significant gain in bone strength. Formula CS Plus duplicates the Creighton formula, but with additional bone-enhancers included. For details see: <http://www.lifelinknet.com/siteResources/Products/Formula-CS-Plus.asp>

Suggested Use: The dose used in the Creighton Study corresponded to 6 tablets per day for a person weighing 147 lbs (67 kg). This dosage can be scaled down for lighter persons, and taken in divided doses, such as 3 tablets 2 times/day.
