Contains shellfish (shrimp, crab, lobster, crayfish) ingredients.

Methylsulfonylmethane (MSM) is an organic source of sulfur, one of the major building blocks of glycosaminoglycans. Glucosamine and glycosaminoglycans are key structural components in cartilage and play an important role in the maintenance of joint cartilage.* Vitamin C is involved in collagen formation.* Manganese-containing enzymes play a role in the production of essential cartilage compounds.* Ginger and White Willow provide natural herbal support to this unique formulation.*
