

MegaRed

100% PURE
OMEGA-3 KRILL OIL 300 mg*

Eco-Friendly. Krill is one of earth's most abundant and sustainable organisms. The harvest of krill is well below conservative international catch guidelines. Schiff® MegaRed® goes a step further by only sourcing krill from the Antarctic where krill is most abundant. This helps the ecosystem maintain a healthy, sustainable krill population.

This product comes from a factory that has been independently certified by the MSC (Marine Stewardship Council) for a well-managed and sustainable krill fishery.

SURE® Schiff® SURE OCEGEL softgels are formulated to disintegrate within one hour.

GUARANTEED: No added sugar, lactose, fructose, lactitol, xylitol, sodium chloride, MSG, wheat, gluten or milk. No preservatives or artificial colors.

GUARANTEED: For purity, freshness and labeled potency.

SUPERBA

MADE WITH SUPERBA KRILL OIL

WARNING: People with seafood allergy, coagulation or taking anticoagulants or other medications should notify their physician and be tested prior to taking dietary supplement.

NOTE: If you are pregnant or nursing, consult your physician before taking this product.

**KEEP OUT OF REACH OF CHILDREN.
STORE IN A COOL, DRY PLACE WITH LID TIGHTLY CLOSED.**

* Supportive, but not conclusive research shows that consumption of EPA and DHA omega-3 fatty acids may reduce the risk of coronary heart disease.

May Reduce the Risk of Coronary Heart Disease

MegaRed® contains oil from pure Antarctic krill, tiny crustaceans that thrive in the frigid waters of the Antarctic. **MegaRed®** provides an optimal combination of omega-3 fatty acids: phospholipids and powerful antioxidants including astaxanthin to support heart and joint health.* *Quality tested for purity.*

COMPARE TO FISH OIL

	Just 1 Small Softgel Per Day	Powerful Antioxidants	Contains Omega-3 Fatty Acids	No Fishy Odor or Aftertaste
MegaRed	✓	✓	✓	✓
Fish Oil Softgel			✓	

MegaRed® Omega-3 Krill Oil contains omega-3 fatty acids DHA and EPA. Research has shown that DHA and EPA may reduce the risk of coronary heart disease! Unlike fish oil, the omega-3 fatty acids in **MegaRed®** Omega-3 Krill Oil are absorbed and carried to the body's cells in phospholipid form.

Phospholipids form the structural basis of cell membranes, so MegaRed® phospholipids with omega-3 fatty acids are easily recognized, incorporated and utilized by the body.

Importantly, because **MegaRed®** omega-3's are carried in phospholipid form, there is no fishy aftertaste.

MegaRed® has been shown to significantly increase your **Omega-3 Index** in just 30 days.* The Omega-3 Index is a measure of the amount of omega-3 fatty acids in your blood. A higher Omega-3 Index is associated with better cardiovascular health.

* THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.

◆ Proprietary controlled human clinical study of 300 mg MegaRed® for improving Omega-3 Index. *American Heart Association*, 2012

◇ 300 mg is the minimum (all per softgel). Due to the natural variability of MegaRed's 100% pure krill oil, each softgel may include more than 300 mg to ensure labeled potency.
