

NutriBiotic Vegan Rice Protein Spectrum Shake is a complete nutritional supplement. Rice Protein is combined with spirulina-bound nutrients, energy producing medium chain triglycerides (MCT), enzymes, and natural vanilla flavor, creating easily digestible, highly assimilable, broad spectrum nourishment for both children and adults. Ideal for individuals who suffer from food allergies and digestive difficulties.

NutriBiotic Vegan Rice Protein is produced by means of a unique enzyme process. A proprietary blend of organic plant enzymes are used to separate the fiber and carbohydrates from the protein portion of the whole grain brown rice. Low temperatures used during processing prevent denaturing of the amino acids. NO CHEMICALS are used at any time. *Due to this enzyme process, color, taste, and texture may vary.*

Each serving of Rice Protein Spectrum Shake provides over 120 readily assimilated nutrients in an easy to mix powder. The vitamin and mineral structures have been fully reacted with 100% pure Kosher Certified spirulina to possess all the properties found in concentrated whole foods including proteins, lipids, glycoproteins, lipoproteins, nucleoproteins, complex carbohydrates, phytopigments, flavonoids, fatty acids, enzymes, co-enzymes, and fiber.

NutriBiotic Vegan Rice Protein Spectrum Shake does not contain soy, milk, eggs, wheat, nuts, or preservatives.
