CODE 0132 V2

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure or prevent any disease.

L-Phenylalanine is an essential amino acid that can be readily converted into the amino acid tyrosine. Because tyrosine is necessary for the synthesis of proteins and the production of the neurotransmitters dopamine and norepinephrine, phenylalanine is an extremely important nutrient that must be obtained through the diet or supplementation.*

SUGGESTED USAGE: As a dietary supplement, take 1 capsule 1 to 3 times daily as needed, preferably between meals. Consider taking this product in combination with NOW® P-5-P and DHA-250.

L-Phenylalanine

NERVOUS SYSTEM SUPPORT

500 mg

- Supports Positive Mood*
- Free-Form

120 Capsules

A Dietary Supplement

Supplement Facts

Serving Size 1 Capsule

Amount Per Serving

L-Phenylalanine (Free-Form) 500 mg*

* Daily Value not established.

Other ingredient: Gelatin (capsule).

Contains no sugar, salt, starch, yeast, wheat, gluten, corn, soy, milk, egg, shellfish or preservatives.

NOW® L-Phenylalanine is a free-form and natural L-form amino acid. Settling of powder may occur in the capsule, which is filled by weight without added fillers.

Caution: Persons with high blood pressure should consult a physician before using.
