

MARKED™ provides the ultimate in performance nutrition for anyone who wants to achieve their health and fitness goals. Using only the highest quality ingredients and latest scientific research, the industry's top nutritional experts have developed the most innovative products designed to deliver optimal performance and results you can see and feel.

100% WHEY PROTEIN COMPLEX is the ideal foundation of any nutritional program for optimal athletic performance.

A product's muscle-building power is based on the total grams of nitrogen in the product. This formula includes additional aminos and ingredients to deliver more nitrogen to your muscles. During intense training and competition, your need for nitrogen increases, and therefore you must consume enough nitrogen to maximize function, growth, performance and recovery.*

- **Anabolic Blend** — More effective than regular protein, this formula delivers the nitrogen power of 23g in a powerful whey + leucine blend to preserve glycogen stores, promote protein synthesis, and help build muscle and strength.*
- **Recovery Blend** — 4g blend includes glutamine and additional aminos to fuel muscle recovery during and after hard workout sessions.*
- **Absorption Enhancement Blend** — Includes PEG and digestive enzymes with advanced technology to enhance nitrogen absorption for faster uptake of nutrients into the body.*

"In a randomized, double-blind, controlled cross-over study of 16 healthy male volunteers, subjects experienced significantly higher maximum concentrations of Total Amino Acids, Branched Chain Amino Acids and Leucine one hour post-ingestion of two servings of the protein blend in MARKED™ 100% Whey Protein Complex relative to amino acid concentrations measured post-ingestion of whey protein concentrate. Significant differences for the Rate of Change of BCAA and leucine absorption were also observed relative to the control group.

"Much of my success can be attributed to my dedication and hard work. I push myself to be the best, from acting to staying in my best shape possible. I'm committed to living a healthy and productive life and helping the people around me do the same. But even for me, finding trusted sports nutrition products was confusing, so I combined what I learned and what I was taking, and teamed up with leading experts to develop MARKED!™ This line is a game changer with amazing formulas people can trust." **MARK WAHLBERG**

A portion of the sales of MARKED™ will benefit the **MARK WAHLBERG YOUTH FOUNDATION.**

† When used in conjunction with a resistance training program.

MARKED™

SCIENCE-BASED PERFORMANCE NUTRITION

100% WHEY PROTEIN COMPLEX

- Proven protein blend fuels muscles fast and delivers 234% more leucine^ for improved strength†*
- Fast-absorbing formula maximizes recovery and performance superior to regular whey*
- Explosive nitrogen complex delivers the power of 23g of protein, ideal pre-workout and post-workout*

GOURMET VANILLA

NATURAL & ARTIFICIAL FLAVORS

DIETARY SUPPLEMENT
32 oz (2 lbs) 909 g

CODE 386197
Directions for Use: As a dietary supplement, add one level scoop (36.5 g) to 7-8 oz cold water, milk or your favorite beverage and blend well. Perfect drink for pre-workout or post-workout. For maximum results, take twice daily on training and non-training days.

Supplement Facts

Serving Size One Level Scoop (36.5 g)		Servings Per Container 24	
Amount Per Serving		% Daily Value†
