

THE ULTIMATE ANABOLIC mTOR ACTIVATION FORMULA

Science confirms what athletes have always known: high quality protein intake is linked to muscle size and strength. MONSTER MILK™ is designed to help you build bigger, stronger muscles while staying lean.**

50% MORE LEUCINE†

MONSTER MILK incorporates L-Leucine and **PepForm™** to drive an industry leading **3:1:1 Ratio** of BCAA's

Recent university research shows that Leucine enriched beverages consumed with exercise synergistically activate and prolong activity of **mTOR** signaling pathway, which increases muscle anabolic potential (muscle growth).**1,2,3

†† Monster Milk has 50% more Leucine (per gram protein) than typical protein powders.

Since we founded **CytoSport™** in 1998, we've been dedicated to working with sports scientists, coaches and trainers to redefine protein enhanced products for active lifestyles and serious athletes — supporting performance when it matters. Over the years, we've expanded to create a comprehensive line that encompasses the athletic experience from preparation, to hydration, to recovery. Our products are among the very few that are manufactured in a **NSF International GMP for Sport™** Registered facility. Our facilities are also inspected and regulated by the **FDA**. We carefully manufacture our powder products and ready-to-drink pre-blends onsite at our corporate campus in Benicia, California. Making efficacious products for athletes and active lifestyle individuals requires responsibility on all fronts. As our business has grown, so has our footprint. We have made environmental sustainability a focus and driver in everyday decision making. For more, please visit our website. Through it all, **CytoSport** has been committed to one thing, building athletes from the inside out.
