Amino-9 Essentials™

Complete "Free-Form" Blend
of all 9 Essential
Amino Acids
300 Tablets
A Dietary Supplement

SUGGESTED USAGE: As a dietary supplement, take 3 tablets daily. Taking with juice or other beverage is recommended due to bitter taste of free-form amino acids. Consider taking these other NOW® products: L-Carnitine, D-Ribose and Creatine.

Amino acids are the subunits that make up proteins. They are necessary for the function of all cells, for tissue repair, and for the production of enzymes and neurotransmitters. The body uses 20 amino acids to construct proteins, but nine "essential amino acids" cannot be made by the human body and must be supplied by the diet in order to achieve proper protein synthesis and maintain overall health. People with limited diets or poor digestion may not get enough essential amino acids from their diet. In contrast to proteins or peptide-bound amino acids, NOW® Amino-9 Essentials™ contains all 9 essential amino acids in their superior free-form state and in the proportions recommended by the National Academy of Sciences to optimize protein synthesis and tissue repair for adults age 19 and over.*

Supplement Facts

Serving Size 3 Tablets
Servings Per Container 100

	Amount Per Serving	% Daily Value
Calories	23	
Total Carbohydrate	2 g	< 1%*
Dietary Fiber	2 g	8%
Calcium (from Calcium Carbonate)	263 mg	26%
