Tri-Boron Plus

* Chelated Boron With Calcium Plus Magnesium, Vitamin D₃ and Co-fac

How It Works:

Tri-Boron Plus capsules are easier to swallow and assimilate. A University study published in *American Pharmacy* has concluded that many brands of tablets dissolve so slowly that they pass from the stomach before they can. Tri-Boron Plus capsules disintegrate and break down quickly in the stomach. Plus is a combination of three natural, highly utilizable chelated sources of mineral Boron. Studies indicate that Boron improves Calcium Metabolism. Tri-Boron Plus capsules synergistically combine the trace mineral Boron, Magnesium and Vitamin D plus trace minerals Zinc, Manganese and Co-factors for several enzymes involved in bone metabolism.*

Suggested Use:

Take two capsules twice daily, preferably two capsules with breakfast and with an evening meal. Studies indicate that calcium is best utilized when dosages.

Product Specs:

Size/Count: 120, 240

Form: Capsule
