

SUGGESTED USAGE: Mix a 1/2 cup of Carbo Gain in each 16 oz. of water or juice. Consume before, during and after intense exercise for best results. Double this recipe if engaging in prolonged exertion of 2 hours or more.

NOW® Carbo Gain is a 100% pure maltodextrin, an easily digestible complex carbohydrate derived from corn. Maltodextrin contains "glucose polymers", linked sugar compounds that are easier for the body to assimilate and use. Glucose polymers are metabolized at a slow, steady rate that can help to sustain energy levels during endurance-oriented workouts and/or athletic events and support weight gain. Carbo Gain contains virtually no protein, fat or fiber and is a convenient source of energy for active individuals.* Look to NOW for all of your high quality sports supplement needs.
