ACTUAL SIZE

SUGGESTED USAGE: As a dietary supplement, take 5 capsules pre-workout and 5 capsules post-workout, totaling 10 per day. To further enhance your nutritional goals, try combining this product with NOW® Branched Chain Amino Acids, Creatine and Ribose.

Amino acids, the building blocks of proteins, are crucial for muscle structure and function. When intact proteins are consumed, these amino acids first need to be liberated by gastro-intestinal digestion - and this costs precious time and energy. Intact proteins can slow the rate at which the stomach empties and lead to discomfort during physical activity. NOW® Amino Peptide is unique in being a pre-digested protein, derived from casein, which delivers high quality, bioavailable amino acids. Amino Peptide's patent-protected enzymatic process generates tiny protein fragments, known as peptides, that are readily absorbed by the intestine. Because they are rapidly absorbed into the bloodstream without requiring further digestion, these small peptides are available to fuel the muscles during intense exercise.*

Amino Peptide

- Patented Casein Hydrolysate
- Predigested Peptides
- Rapidly Absorbed*

300 Capsules

A Dietary Supplement

Supplement Facts

Serving Size 5 Capsules
Servings Per Container 60

	Amount Per Serving	% Daily Value
Calories	10	
Protein	2 g	4%*
PeptoPro® Casein Hydrolysate (milk)	2.0 g (2,000 mg)	†

* Percent Daily Values are based on a 2,000 calorie diet.

Typical Amino Acid Profile

Essential Amino Acids	mg per 5 Capsule Serving
L-Histidine	42
L-Isoleucine	72
L-Leucine	150
L-Lysine	116
L-Methionine	48
L-Phenylalanine	80
L-Threonine	58
L-Tryptophan	14
L-Valine	96
Non-Essential Amino Acids	
L-Alanine	46
L-Arginine	48
L-Aspartic Acid	108
L-Glutamic Acid	356
L-Glycine	28
L-Proline	166
L-Serine	80
L-Tyrosine	86
