in health food stores nationwide.

Coenzyme Q10 is a vitamin-like compound also called ubiquinone. It is an essential component of cells and is necessary for mitochondrial energy production. Years of research has shown that CoQ10 supports healthy cardiovascular and immune system functions in addition to its vital role in energy production.* Our Coenzyme Q10 is produced exclusively in Japan through a natural fermentation process. Look for other fine NOW® products in health food stores nationwide.

SUGGESTED USAGE: As a dietary supplement, take 1 capsule 1-2 times daily, preferably with meals.
