N-Acetyl Cysteine (NAC) is a stable form of the non-essen-

tial amino acid L-Cysteine. It is a sulfur-containing amino acid that acts as a stabilizer for the formation of protein structures, and is also necessary for the formation of glutathione. Molybdenum and Selenium are essential trace minerals that facilitate the production of several important enzymes.*

Antioxidant Caps.

SUGGESTED USAGE: As a dietary supplement, take 1 Vcap® 2 times a day. Consider taking this product in combination with NOW® GLISODIN®, Alpha Lipoic Acid and

Antioxidant Caps.

NAC
