POWERFUL, MULTI-ACTION ANABOLIC AMINO FORMULA:
GNC Beyond RAW® Re-Power is an intense four-part rapid delivery formula scientifically designed with anabolic primers and muscle buffers for beyond hardcore results.

REVOLUTIONARY FOUR-PART ANABOLIC SYSTEM:
Part 1: Features 6 grams of ultra-fine micronized and intact BCAA to rapidly fuel muscle protein synthesis and preserve muscle glycogen levels during hardcore training.*
Part 2: Anabolic Complex primes muscles with clinically studied ingredients to trigger hardcore anabolic activity to support workouts designed to build punishing strength and power. This blend features micronized amino acids for fast absorption and fenugreek to prime your body to fuel peak performance.*
Part 3: Muscle Shield System influences fatigue factors, fuels recovery and combats the exercise-induced cell damage from muscle shredding workouts. Micronized beta-alanine is a high efficiency muscle buffer that influences fatigue controlling factors in the body. This critical blend featuring alpha-lipoic acid, green tea and astaxanthin works to combat muscle-damaging free radicals that are generated through intense training and provides Sustamine™, a highly-absorbable form of glutamine and alanine, to support recovery from those hardcore workouts.*
Part 4: D-Ribose rapidly fuels cellular and muscular energy and increases performance.*
