Chelated Copper Tablets

Copper is an essential trace mineral. It supports the formation of collagen and connective tissue. It promotes bone, joint, skin, nail and hair health. Copper also assists iron in releasing energy from cells. This formulation provides a patented highly bioavailable form of chelated copper.*

Supplement Facts

Serving Size: 1 Tablet

Amount Per Serving	% DV
Copper (as copper glycinate amino acid chelate†)	2.5 mg 125%
