Caution: If you are pregnant, may become pregnant, or are breast feeding, please consult your healthcare practitioner before using this product.

out negative side-effects.*

Black Cohosh (*Cimicifuga racemosa*) is an herb that has been traditionally used by Native Americans to alleviate the symptoms of menopause and other female complaints. Red Clover (*Trifolium pratense*) is an herb particularly rich in biologically active compounds that are recognized for their role in the support of healthy estrogen levels. Therefore, NOW's synergistic combination of Black Cohosh and Red Clover provides natural relief for the discomfort of menopause and peri-menopause without negative side-effects.*

SUGGESTED USAGE: As a dietary supplement, take 1 Vcap® 1 to 2 times daily. Consider taking this product in combination with NOW® Female Balance™, Soy Isoflavones and Ever™ Women's Multi.
