

Easy to Swallow Capsules

Recommended Use: Take one packet daily with meal.

Allergen warning: Manufactured in a facility that processes milk, soy, wheat, tree nuts, and peanuts. Gluten free.

Do not consume more than the Recommended Daily Allowance (RDA) of vitamin K and try to consume a consistent amount daily. Always inform your doctor of any nonprescription or prescription medications, herbal supplements and vitamins you may be taking. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately. Do not take with sulfonamide since PABA interferes with the activity of this drug. Women who are pregnant should not exceed recommended dosage. Capsules need to be stored between 59° - 77° F.

Supplement Facts

Serving Size 1 Package Servings Per Container 30

	Amount Per Serving	%Daily Value
Calories	35

MEDIVIN™

100% Natural Liquid Vitamin & Mineral Delivery System

- **100% Natural Delivery System**
- **5000 IU Vitamin D-3**
- **Designed for Men & Women**
- **Small Easy to Swallow Capsules**
- **Ultra High Bio-Availability†**
- **Contains 50mg Lactoferrin per Serving: Iron Transport Vehicle & Regulator†**

†MEDIVIN™ has been scientifically formulated to be the cream of the crop of multivitamin supplements. Not only will you receive all the essential vitamins and minerals, but you'll get the benefits of omega 3 fatty acids, lutein, and antioxidants. Also, MEDIVIN™ contains the synergistic combination of vitamins E, C, as well as calcium. This trio of nutrients has several outstanding characteristics specifically designed to help you recover from your workout and reduce body fat†.

†Research has proven that regardless of whether you're doing a short bout of intense exercise or an ultra marathon, your body's antioxidant defenses may be compromised. In distance runners, vitamin E significantly reduced the markers of muscle injury following six successive days of endurance running†. Another study found that vitamin C supplementation had beneficial effects on muscle soreness and muscle function post exercise†. And to top it off, research shows that the calcium in MEDIVIN™ may assist in fat loss†.

†Consuming the right nutrients for optimal health and fitness is one thing. However, nutrient utilization is another. Unlike most brands, the nutrients in MEDIVIN™ are encased in super virgin oils that aid in maximum nutrient absorption and duration of action. This represents a quantum leap over pressed tablets. Remember, minerals + heat + pressure = a rock. That's why some other vitamin and mineral brands have shown to have just 0-4% absorption. Conversely, MEDIVIN™ has shown in dissolution studies to have a super high absorption rate of 84% to 97%! MEDIVIN™ not only contains the most scientific and synergistic combination of micronutrients you need, but it also delivers them to the body so they can be utilized more effectively. The NEW BioLiquid MEDIVIN™ innovation packs a nutrient dense punch in one convenient packet.
