60 caps

Get Smart™ brain formula **Raise your IQ**

2 capsules contain

Aniracetam	800 mg
Centrophoxine	300 mg
Pyritinol	300 mg
Picamilon	100 mg
Piracetam	100 mg
Oxiracetam	10 mg
Idebenone	10 mg
Vinpocetine	10 mg
Huperzine A	100 mcg

Pyritinol has been used in Europe since 1961 for various cognitive conditions such as dementia, head injury, stroke aftermath, coma, and cerebral circulatory disorders. Pyritinol has shown to help Attention Deficit Disorder (ADD) and is used by people of all ages to improve memory, concentration, and to enhance information processing.

Picamilon is a Russian nootropic that enhances cerebral circulation. Picamilon is used in Russia to treat anxiety, depression, headaches, glaucoma, and eye disorders.

Centrophoxine raises brain acetylcholine levels thereby increasing alertness and attention span and improving learning ability.

Aniracetam and **Oxiracetam** are nootropics that improve communication between the two brain hemispheres.

Huperzine A (*Huperzia serrata*) is an ingredient found in Chinese Moss that enhances mental functioning by prolonging the life of the brain neurotransmitter acetylcholine. It works by inhibiting acetylcholinesterase, the enzyme that breaks down acetylcholine. This is the same mechanism of action by which the prescription drug Aricept works.

Vinpocetine is a periwinkle plant extract that:

1. dilates the arteries of the brain but does not dilate other blood vessels
2. improves the brain's utilization of glucose.
3. improves vision for some
4. improves impaired hearing
5. improves Tinnitus (ringing in the ears) and Vertigo (dizziness).
6. can prevent stroke and mitigate damage in the aftermath of stroke.
