Native Americans have used cayenne (*Capsicum frutescens*) as a food, as well as for its therapeutic potential for thousands of years. The hot and spicy taste of cayenne pepper is primarily due to a compound known as capsaicin. Modern scientific studies have indicated that consumption of Cayenne can help to support cardiovascular health and may also stimulate healthy digestive function.*

SUGGESTED USAGE: As a dietary supplement, take 1 capsule 2 to 4 times daily, preferably with meals. Consider taking this product in combination with NOW® Vein Supreme™ and Garlic.
