Caution: For adults only. Consult physician if pregnant/nursing, taking medication, or have a medical condition. Keep out of reach of children.

L-Lysine is an essential amino acid, which means that it cannot be manufactured by the body and must be obtained through the diet or by supplementation. Lysine is necessary for the production of all protein in the body including hormones, enzymes, and antibodies, as well as cartilage and collagen, which is the structural protein forming all connective tissue such as skin, tendon, and bone. L-Lysine also plays a major role in calcium absorption. Some evidence suggests that L-Lysine supplementation may help to support a healthy immune system as well as proper cardiovascular function.*

SUGGESTED USAGE: As a dietary supplement, take 1 capsule 1 to 3 times daily, with or between meals. Consider taking these other NOW® products: L-Proline, Zinc and AllBioBic CF™.

L-Lysine

ESSENTIAL AMINO ACID

500 mg

- Supports Healthy Connective Tissue
- Supports Calcium Absorption*

100 Capsules

A Dietary Supplement

Supplement Facts

Serving Size 1 Capsule

Amount Per Serving
