

Ambrotose® Complex

Cell-to-Cell Communication to Transform Your Health*

Based on Real Food Technology solutions, **classic Ambrotose complex** is an amazing and powerful daily supplement containing plant polysaccharides that provide your body with glyconutrients to improve the foundation of your wellness—starting with your cells!*

It's the original breakthrough Mannatech product as well as the centerpiece for our Integrative Health approach, one that addresses the whole person—mind, body and spirit.

Third-party clinical trials indicate the following benefits†:

Supports **cell-to-cell communication** through a blend of specific plant saccharides including **glyconutrients**.*†

Supports your **immune system** as well as proper **organ function**.*†

Helps support **proper digestive system function**.*†

Promotes **gastrointestinal health**.*†

May enhance **recall and recognition memory**.*†

May improve **mood and decrease irritability**.*†

*Benefits vary by product. Mannatech funded these studies and donated the product.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Mannatech Ambrotose® Complex

Where Classic Ambrotose Complex Comes From

While aloe vera has long been known to be extraordinarily beneficial to the human body, no one understood what ingredients made it so effective. That is, until the 1980s, when Mannatech scientists mined aloe vera for the unique sugar (mannose) responsible for its immune-boosting benefits. They discovered and isolated a new class of nutrients—glyconutrients—from plant polysaccharides that help to complete the cellular alphabet of our body's communication system. The result—our classic Ambrotose complex.*
