NUTRILITE® Vitamin D3 2000 IU plus K2

90 tablets

Item #: 109760

Research shows that most people don't get enough vitamin D in their diet. NUTRILITE Vitamin D3 provides the naturally occurring form of vitamin D your body produces when exposed to sunlight – in an amount that is equal to 20 glasses of milk.

Halal

Description

Vitamin D helps the body absorb calcium for strong bones and teeth, and new research shows that it also supports breast, colon, and immune system health.

Studies show that most people don't get enough of this beneficial nutrient, and it's hard to get enough vitamin D through diet alone unless you eat a lot of fish such as salmon, sardines, mackerel, or herring. This is why many health experts are now recommending an increase to the Recommended Dietary Allowance for vitamin D, suggesting that you get a minimum of 2,000 International Units (IU) each day.

Suggested use: Take one tablet daily with a meal.

NUTRILITE®

Vitamin D3 2000 IU Plus Vitamin K2

10-9760

NUTRILITE® Vitamin D3 2000 IU Plus Vitamin K2 is a high potency dietary supplement. Vitamin D is essential for calcium absorption into the bloodstream. Vitamin K2 plays an important role in getting calcium from your bloodstream into your bones. Naturally sourced from an extract of fermented soybeans, our vitamin K2 is the most bioavailable, longest lasting and most bioactive form of vitamin K.

KEEP TIGHTLY CLOSED. STORE IN COOL, DRY PLACE. NO ARTIFICIAL COLORS OR PRESERVATIVES ADDED.
