EnzyPerfect 180

- The flagship of NutraPerfect. This digestive enzyme is specifically designed to aid in the digestion of all foods including proteins, carbohydrates, starches, fats, fibers and all forms of sugars. Every individual should try to get the foods they eat broken down into their smallest components for absorption of vitamins, minerals, and other nutrients.
- It is different from other enzyme formulas in the market because the capsule of eight distinct enzymes also contains more than 77 organic minerals and some selected macro minerals to act as co-factors to "trigger" the enzymes for proper function and better usage.
- Five of the enzymes specifically aid in the processing of sugars to maintain proper glucose and insulin levels. This plant enzyme formula is derived from organic aspergillus and is effective at all pH levels and body temperatures, unlike bromelain, papain, or pancreatic enzymes.
- (1) to (2) Capsules at the beginning of every meal. May be taken between meals for systemic use.

1 CAPSULE PROVIDES:

Protease.....	28,000 HUT
Amylase.....	10,000 SKB
Lipase.....	450 FI
Cellulase.....	100 CU
Invertase.....	400 Sumner
Maltase.....	250 DU
Lactase.....	400ALU
ApplePectin.....	20 mg
Betaine HCL.....	10 mg
Calcium (carbonate)	70 mg
Magnesium (citrate)	35 mg
Zinc (gluconate).....	2 mg
Manganese (gluconate)	1 mg
Ionic Trace Minerals.....	15 mg
(From Marine Minerals)
