Hawthorn is one of the oldest known herbs used in traditional European herbal medicine. It is first mentioned in the journal of Dioscorides, a Greek physician of the first century. The Hawthorn tree was regarded as sacred at one time due to the belief that it furnished the Crown of Thorns in early Christian history. Hawthorn contains various compounds such as procyanidins, flavonoids and flavonols which exhibit antioxidant properties.* Today, the berry, leaf and flower of the plant are all used in various herbal formulations.

SUGGESTED USAGE: As a dietary supplement, take 2 capsules 3 times daily with meals.

Hawthorn Berry

CIRCULATORY SUPPORT

550 mg

- Supports Heart Health
