NOW® Chewable Vitamin D-1000 supplies recommended levels of this key vitamin in a tasty chewable form. Vitamin D is normally obtained from the diet or produced by the skin from the ultraviolet energy of the sun. However, it is not abundant in food. As more people avoid sun exposure, Vitamin D supplementation becomes even more necessary to ensure that your body receives an adequate supply.

SUGGESTED USAGE: As a dietary supplement (for children and adults), take 1 chewable tablet daily with a meal. Consider taking this product in combination with NOW® Vitamin A and Calcium supplements.
