Chlorophyll is a unique substance found in all plant life. It is the pigment that gives plants their green color and it absorbs light necessary for photosynthesis which sustains plant life through the conversion of sunlight into chemical energy. Identified as sodium-copper chlorophyllin, this water-soluble extract is derived exclusively from alfalfa through a natural extraction process.

SUGGESTED USAGE: As a dietary supplement and internal freshener, take 1 capsule 1 to 4 times daily.

- 100 mg
- With Alfalfa Powder

90 Capsules
A Dietary Supplement
